

## Who is SMARTTraining?

Singapore Math Advisors, Resources and Teacher Training was founded by **classroom teachers, TRICIA SALERNO, CASSY TURNER and SHERRI ADLER.**

Between them, they represent over **15 years of success using the Singapore Math curriculum.**

Unlike MOST Singapore Math trainers in the US, SMARTTraining trainers have taught Singapore Math in real classrooms to real students at all grade levels, K – 6. They have all received training from Singaporean educators and curriculum authors. Cassy and Tricia have visited Singapore and brought back a wealth of information regarding Singapore Math, which they have used in their classrooms.

SMARTTraining wrote the training manual for Singapore Math for the State of California, and has worked with teachers in over 50 schools in the United States, Canada, the Bahamas, and Switzerland.

## U.S. Math Education is “Broken and must be fixed.”

- National Mathematics Advisory Panel  
report released March 13, 2008

Confronted with mediocre math education in the 1980s, leaders in Singapore developed a curriculum that transformed student performance in less than a decade.

Singapore math students ranked best in the world in international tests conducted in 1995, 1999 and 2003.

**Singapore Math - the world's  
leading math curriculum - is  
available to American students.**

**SMARTTraining Presents:**

## AN INTRODUCTION TO SINGAPORE MATH

**Friday, October 3, 2008**

or

**Saturday, October 4**

**9am - 3 pm**

**La Quinta Inn & Suites Salt Lake City Airport**

4905 W. Wiley Post Way

Salt Lake City, UT 84116

## Who Should Attend?

- ✓ Kindergarten through Grade 6 Educators and Math Coaches
- ✓ Math Ed Professors and their Students
- ✓ Administrators
- ✓ Parents
- ✓ Gifted and Talented Educators
- ✓ Remediation and Special Needs Educators
- ✓ English Language Learner Educators

## What Experts Say About Singapore Math

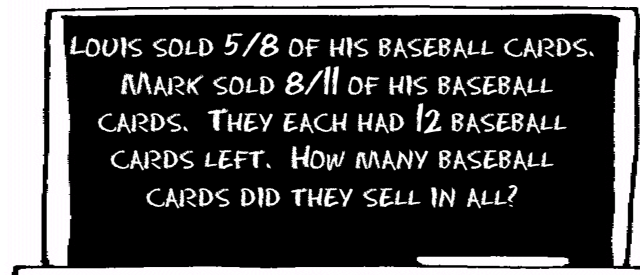

"Singapore's textbooks build deep understanding of mathematical concepts through multi-step problems and concrete illustrations that demonstrate how abstract mathematical concepts are used to solve problems from different perspectives."

-American Institutes for Research study, January 28, 2005.

## Learn Why Singapore is #1 in the World in Math

- Results-based!
- Continually ranks #1 on international assessments.
- Enables students to understand the "why" and the "how" of mathematics.
- Creates students and teachers who are confident and competent in their mathematical abilities.
- Teaches 10 – 12 concepts per year to **mastery!**
- First graders learn to add and subtract mentally within 100.
- Introduces algebraic reasoning in the third grade.
- Students attack and conquer word problems beginning in first grade.

**Try it:** Learn how to solve this fifth grade problem - **easily**, no algebra needed!
